

JEAN L. FOURCROY, M.D., PH. D., M.P.H.
UROLOGY/ ENDOCRINOLOGY& REGULATORY ISSUES

Dr. Fourcroy received her M.D. from the Medical College of Pennsylvania and her Ph.D from the University of California at San Francisco. Her surgery and urology residencies were completed at George Washington University Medical Center with Board Certification in Urology in 1981. As a retired navy Captain she serves as staff urologist at Walter Reed Army Medical Center and The Uniformed Services University of Health Science. In 1999 she received her Masters in Public Health from the Medical College of Wisconsin. She retired as a Medical Officer with the Food and Drug Administration having been involved with many aspects of the regulatory process within the entire Agency including the development of new drugs and devices as well as issues of supplements, including drugs and devices targeted for urologic cancer. Currently, she is a regulatory consultant in areas of urology and endocrinology and a member of the editorial board for the NCI PDQ. Her broad research experience includes insect physiology, developmental and reproductive biology, and occupational safety. She has been appointed to the Board of the U.S. Anti-Doping Agency and is an active member of the American Urological Association, the American Society of Andrology, and Past President of the American Medical Women's Association. She is the editor of a forthcoming book on Sports, Science and Doping. Dr. Fourcroy is the recipient of a 1998 American Urological Association Presidential Citation Award, the 1999 Camille Mermod Award from the American Medical Women's Association, and an Outstanding Service Award from the American Society of Andrology in April 2000. In 2003 she was chosen as one of the honored physicians in the National Library of Medicine exhibit on women physicians that have "changed the face of medicine" and received the American Society of Andrology Presidential Citation in 2004. In 2005 she was made an honorary member of the Delta Omega Pi Public Health Honor Society. She is the editor of a recent book, "Pharmacology, Doping and sports".
